Eve's Green Corner of Life

I recently received a letter from one of our clients regarding our Newsletters. Here is what she said...

Thank you very much for the monthly flyers. By the end of the month I am soooo stressed out that I forget I will be receiving your monthly volume envelope. When the mail comes and I see the envelope, I always get excited to see what new things are inside (just like a little kid opening a surprise gift box). You cannot imagine how it makes my day. I get this silly grin on my face all day. I truly enjoy the tid bits of information and stories you provide.

Forever grateful,
Jenny Angeli

Budding of Trees – A Sign of Hope

As winter-weary Americans burst outdoors to exercise, play and dig into yard work, and student athletes' training transitions back out to fresh Spring air, we notice the budding of trees. Sometimes, we just stare at them because of the good feeling we get at the sign of hope and birth.

Next time you go outside for your lunch break, take note of the budding of trees, and nature's amazing power of growth and perseverance. Trees and plants are great role models for all of us. Just remember, the economy will "Spring" back just as all natural cycles will, so look out for the signs of hope and growth. Wishing all of our clients and their families a joyous Spring.

April Showers?
You've Got
Poncho!

PLANT OF THE MONTH

Limelight Dracaena

has bright, glossy yellow-green foliage and will perform well in low-light conditions inside the home or office.

OUR GIFT TO YOU!

"A customer is the most important visitor on our premises. He is not dependent on us. We are dependent on him. He is not an interruption of our work. He is the purpose of it. He is not an outsider of our business. He is part of it. We are not doing him a favor by serving him. He is doing us a favor by giving us the opportunity to do so."

~ Mohandaas Karamchand Gandhi
