PLANT TECH CORNER

We are happy that your plants did well with the summer temperatures this year.

Please inform us of any concerns or comments you might have pertaining to your office plants.

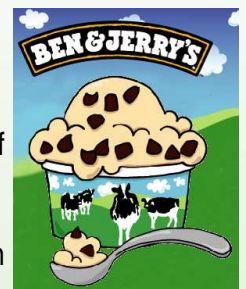

We want to thank our technician team for your thriving plants, happy customers like yourselves and helping us with keeping the earth greener.

Linda Drasheff*

Let's Talk Ice Cream!

What's your favorite flavor?

While having a meeting with a few of our team members, the subject of ice cream and flavors came up in discussion. We began to realize that everyone actually had their own "Favorite" ice cream. So we wrote down what we liked and noticed that each of our tastes for ice cream were as unique as the individual personalities. So this is what we wrote:

Linda- can't make up her mind between Cherry Garcia and Mint Chocolate Chunk

Pam- hands down Chubby Hubby with chocolate sprinkles

Eve's- Coffee Health Bar, she says she needs the crunch

Ray- Chunky Monkey, he likes crunchy chocolate

Gabrielle- Banana Swirl - because of the fudge swirl

Javier- Coffee Heath Bar Crunch,...you know chocolate and coffee, the best!

Jacob- Phish food, what's not to like

Jack- Mint chocolate Chunk, love the mint, Linda does this help your decision?

Jessica- Vanilla, no need to mix it with anything, love the texture

Nado- Strawberry Cheesecake, I just love it!

Joan- Coffee, it tastes sweet, delicious and spicy

PLANT OF THE MONTH

Chrysanthemum

Grows to 50–150 cm tall, with deeply lobed leaves and large flowerheads, white, yellow or pink in the wild species. Also known as 'mums.'

OUR GIFT TO
YOU!

This month's newsletter is dedicated to the last days of the summer heat, so just sit back, relax, enjoy your plants, and think of Manhattan Plants when eating your ice cream!
